WORK EXPERIENCES AND ACHIEVEMENTS

Self-Learning Web Development + Portfolio Building (2023 Sept - Present)

- Dedicated my full-time efforts to deepen my understanding of web development beyond the fundamental HTML, CSS, and JS.
- Started learning about PHP & Laravel framework some time around end of Sept 2023 and began building a full-stack e-commerce web application called 'Food Paradiso' by the end of Oct 2023.
- On **24 Nov 2023**, successfully deployed my app to the web after resolving some issues related to missing PHP extension with my web hosting provider. As of current, the app is running smoothly without any notable issue and can be visited through the link provided in my portfolio site.
- After completing 'Food Paradiso', I started learning about WordPress and using it to create my very own portfolio site. The site was completed within a week and the results can be seen by visiting the link provided in the contact section on the left.

Ygl Convergence Berhad ERP Consultant (2022 May - 2023 Aug)

- Conducted thorough requirement studies, understanding clients' needs and facilitating seamless implementation of YGL ERP system into daily operations.
- Aided clients with data migration and delivered comprehensive key user training to ensure optimal familiarity with the YGL ERP system.
- Contributed to the successful deployment of the YGL ERP system across 8 distinct manufacturing companies, encompassing sectors such as food, industrial packaging, metal fabrication, and chemicals.
- As the project lead, achieved a successful go-live in June 2023, followed by providing dedicated client support and ensuring timely implementation for other projects.

Kaifa Technology Malaysia Sdn. Bhd. Production cum Material Planner (2021 Oct - 2022 Mar)

- As the sole planner in the PPC department, effectively directed the entire Kaifa team by establishing product manufacturing priorities through comprehensive capacity planning and delivery commitments, all done under the guidance of seniors from Johor company branch.
- Successfully revamped production efficiency, preventing delays in customer orders, and addressing significant backlogs upon joining the team.
- Generated weekly CTB (Clear to Build) status reports and worked closely with the purchasing department to ensure continuous raw material availability for production.
- Collaborated with cross-functional teams from departments like production, engineering, warehouse, & IT, optimizing production processes while resolving SAP ERP and MES system issues.

Leong Yin Pastry Sdn. Bhd.
QA/QC Intern (2021 Apr - 2021 Sept)

- Conducted quality control checks during mooncake production, ensuring adherence to standards, and supported other QA/QC tasks, such as reviewing the quality management system, maintaining records, and addressing customer inquiries.
 - Contributed to the R&D of new mooncake products for the current year, exploring innovative ideas and assisting in the application and renewal of halal certificates for new and existing products.
 - Assisted in conducting internal audits to ensure compliance with quality standards and participated in continuous improvement initiatives to enhance overall product quality and processes.
-
